WINE FILTERS

Buon Vino MINI JET Wine Filter

Quantity Discount

Wine filtration is the last step in the wine making process. The Buon Vino Mini Jet is manufactured with the home winemaker in mind. It is ideal for the customer who is filtering 1 or 2-23 litre batches at one time.

NOTE: *The Buon Vino Mini Jet is a filter NOT an electric bottle filler. Use of this unit for bottling will damage the pump and void warranty.*

NOTE: *Buon Vino Mini Jet is available with 220V Transformers EU Plug, UK Plug, AU Plug.*

MINI JET PRE-SCREEN FILTER 3/8" BARB

Pre-Screen Filter – Mini Jet

Screen Only

The Pre-Screen Filter can be attached to the intake hose on the Mini Jet to screen out large particles of sediment such as oak chips and/or seeds before they reach the pump.

Buon Vino SUPER JET Wine Filter

Made for winemakers who make wine from grapes, berries or fresh juice and makes 40 Gal/year.

NOTE: *Buon Vino Wine Filters are available with 220V Motors (for use outside of North America) upon request.*

SEMI-INDUSTRIAL WINE FILTERS

10 Pad SEMI-INDUSTRIAL Wine Filter

Includes Pre-Screen Filter

10 Pad Wine Filter

24"h x 14"w x 15"l

- All Stainless Steel Filter Housing
- Averages 3 - 4 minutes / 23L batch
- Averages 15 - 20 batches / set of 10 pads
- Uses Buon Vino Super Jet Filter Pads

10 PAD WINE FILTER

6 Pad SEMI-INDUSTRIAL Wine Filter

The 6 Pad Wine Filter looks and operates the same as the Buon Vino Super Jet 3 Pad. However, it has additional room for 3 more filter pads and a higher capacity pump.

Tips on filtering - see page 5.

6 PAD WINE FILTER

Pre-Screen Filter – Super Jet

Screen Only

The Pre-Screen Filter can be attached to the intake hose on the Super Jet or Semi-Industrial Wine Filter to screen out large particles of sediment such as oak chips and/or seeds before they reach the pump. This should prolong the life of the Check Valve and allow you to maintain a much cleaner pump.

SUPER JET PRE-SCREEN FILTER 1/2" BARB

**NOTE: Buon Vino Wine Filters are available with 220V Motors
(for use outside of North America) upon request.**

DE-GASSING EQUIPMENT

FIZZ_X Wine Agitating Rod

One of the most important parts of wine making is removing the gas after fermentation. De-gassing insures faster and more effective clearing and aging.

The Fizz_x wine agitating rod eliminates the hassle of shaking and stirring. It also makes filtration an easier task.

FIZZ_X WINE AGITATING ROD

Fermtech_{Ltd.} The Whip

Powerful mixer degasses your wine quickly and easily.
Removes carbonation.

CORKS ~ Agglomerated:

#9 Agglomerated - 7/cs	Short (38 x 23)
#9 Agglomerated - 6/cs	Long (44 x 23)
#8 Agglomerated - 6/cs	Long (44 x 22)

CORKS ~ Natural:

#9 Natural <i>Straight</i> - 6/cs	Short (38 x 24)
#9 Natural <i>Straight</i> - 5/cs	Long (45 x 24)
#8 Natural <i>Straight</i> - 6/cs	Short (38 x 22)

Buon Vino's Natural and Agglomerated Corks are pre-packaged in bags of 1000 and are sealed with S₀₂ gas to assure quality.

Synthetic Corks:

Extruded Synthetic Cork #8	Long (44 x 22)
----------------------------	----------------

How To Determine a GOOD Agglomerated Cork:

- The shavings that form the Agglomerated Cork are uniform in size and texture.
- There is a little give to the Agglomerated Cork when you depress against the side.
- The Agglomerated Cork should absorb no more than $\frac{1}{8}$ " of wine after being inserted into the bottle.

BOTTLE FILLING EQUIPMENT

Electric Bottler Filler

Table Top Model

Developed to make your wine filling needs easier, the Buon Vino Fill Jet Electric Bottle Filler is capable of filling a 750ml bottle in just 17 seconds. It's specially designed tapered tip cascades wine into the bottle, and the pump is self de-activating to help prevent overflows. These fillers can be used anywhere, with its self-priming pump and spring loaded bottle base – they are fast and easy to use.

Returns will only be accepted subject to approval by Buon Vino. A re-stocking charge may apply.

Shipments:

Please check your order for any visible signs of damage. If you sign saying it was received in good condition then a shipment claim cannot be filed with the shipping company.

TIPS ON FILTERING

Troubleshooting Your Filters: Mini Jet, Super Jet, 6 Pad Wine Filter, and 10 Pad

- 1) Clean your machine before and after use. It is recommended that you flush 5 gallons of clean water through the pump before and after use. It is a good idea to use warm water to clean out the machine. This should help to release residual sugar.
- 2) Are your filter pads in properly? Ensure that all holes on the unit and pads are lined up.

SUPER JET – coarse side of the pad faces the motor.

MINI JET – coarse side of the pad faces the handwheels.
- 3) Did you wet your filter pads before inserting them into the machine? This allows the plates to create a seal around the outside of the pad when you tighten down on the plates.
- 4) Lubricate these parts with petroleum jelly (Vaseline). This will allow you to create a good seal on the filter pads.

SUPER JET – front tightening screw.

MINI JET – tightening screw threads on the 2 bolts for the handwheels.

TABLETOP FIL jet

Developed to make your wine filling needs easier, capable of filling a 750ml bottle in just 17 seconds.
